### 1. General Information

As a component of Executive Order # 156, we encourage environmental sustainability efforts that help develop markets for recyclable materials. State agencies shall procure and use environmentally preferable goods and services, including products made wholly or in part from recycled materials, whenever feasible and practicable. Agencies shall give consideration to environmentally preferable products that are more energy efficient, less toxic, less polluting, and which generate less waste overall.

### 2. Scope of Contract

The scope of this contract is limited to paper (office use) and envelopes for use by all State agencies, departments, institutions, community colleges (except those exempt by statute) and certain Non-State agencies.

### 3. Taxes

Prices or Discounts shown herein do not include any North Carolina sales or use taxes.

### 4. Abnormal Quantities

Any agency requirement that exceeds 8,000 reams (that's 800 cartons) or more and/or weighting a minimum of 42,000 lbs. must be forwarded to the Division of Purchase and Contract for processing. The Division, at its sole discretion, may process any such requirement in one of the following ways:

1. Purchase may be authorized at the current level of pricing with the current contract vendor(s)
2. Additional discounts from the current level of pricing may be negotiated with the current contract vendor(s)
3. A separate Invitation for Bids may be issued for the requirement

### 5. Minimum Orders

This contract will be for a minimum order of \$200.00 for any single order. Agencies are authorized to purchase from best available sources on orders less than this minimum order value. This provision shall not be used by an agency to circumvent the intent of the contract. If an agency elects to place an order for less than the minimum order value, then transportation charges will be prepaid and added to the invoice.

### 6. Placement of Orders

Orders will be placed throughout the contract period on an as-needed basis for the quantity required at the time, and will be issued directly to the respective contractor(s) or their designated suppliers. Contract changes, if any, over the life of the contract are implemented by contract addenda released by the Contract Administrator to the contractor. If the contractor is accepting orders and/or delivering through other parties, for example a manufacturer accepting orders and delivering through a dealer network or dealers receiving orders through a network of other dealers, then it is the responsibility of the contractor to apprise such parties of all such contract addenda.

## 11. Contractors

All known minority, women and disabled owned businesses, as well as disabled business enterprises and nonprofit work centers for the blind and severely disabled, including dealers, will be identified with "Minority owned" "Woman owned", "Disabled Owned", "DBE" or "BSD" as appropriate after the vendor number. This is being done in an effort to recognize these businesses and to encourage and promote their use to the greatest extent permitted by law.

When more than one supplier is listed for a particular item, selection should be made, whenever possible, from any of the groups identified above, consistent with agency needs and price considerations.
